SPOT Training	Finished training module and correctly answered all associated questions.	Finished training module and correctly answered some of the associated questions.	Finished training modules. Questions incomplete or incorrect.	Training module complete, but questions not answered.
SPOT Examples	Drew at least 3 accurate examples of solar storms.	Drew at least 2 examples of solar storms.	Drew some solar storms, but not accurately or neatly.	Drawings missing or inaccurate.
SPOT Module	Identified solar storms in required number of SPOTS. Recorded required information for each.	Identified solar storms in required number of SPOTS, but did not record all required information.	Missing some SPOTS or lacking required information.	Data minimal/incomplete.
What's That Training	Completed What's That training, sketched examples and explained the objective of this task.	Completed training and explained the task objective, but missing some sketches.	Completed training but missing objective or sketches.	Completed training, but did not complete other required tasks.
What's That Module	Completed required number, recorded all required observations, and answered associated questions thoughtfully.	Completed required number, recorded all required observations, and answered associated questions. Observations or answers lacking detail.	Did not complete all required tasks or work was lacking significant detail.	Did not complete all required tasks. Did not record observations.
Trace It	Completed required tasks and explained why j-maps are useful.	Completed required tasks, but did not respond thoughtfully to all questions.	Completed Trace It module but did not answer some questions.	Incomplete work.
My StormWatch Page	N/A	N/A	Printed My StormWatch progress page and stapled it to lab report.	N/A
Conclusion	Read and responded to several of the StormWatch blog entries. Discussed scientific merit of the project and explained how you, personally contributed.	Read and responded to one StormWatch blog entry. Discussed scientific merit of the project and explained how you, personally contributed.	Read and responded to several of the StormWatch blog entries. Explained how you, personally contributed.	Incomplete conclusion. Did not address personal contribution to the project.
